

K-Love Radio is a servant to our community and greatly appreciated where I live. It would be a shame for this radio station to be displaced by secular programming and the ill effects that it would bring. K-Love radio is a light in this dark and dying world. The service that K-Love radio provides is invaluable and necessary to create a safe and nurturing environment for the young and new believers in Christ thereby supporting America's foundational faith and virtues. Please have a conscience of where and how the future of this great country will succeed, so please consider this...thanks, Daryl.
